Average Tariff Points

No Tariff Points

2009/2010

- 52.1 % (559) No Tariff Points

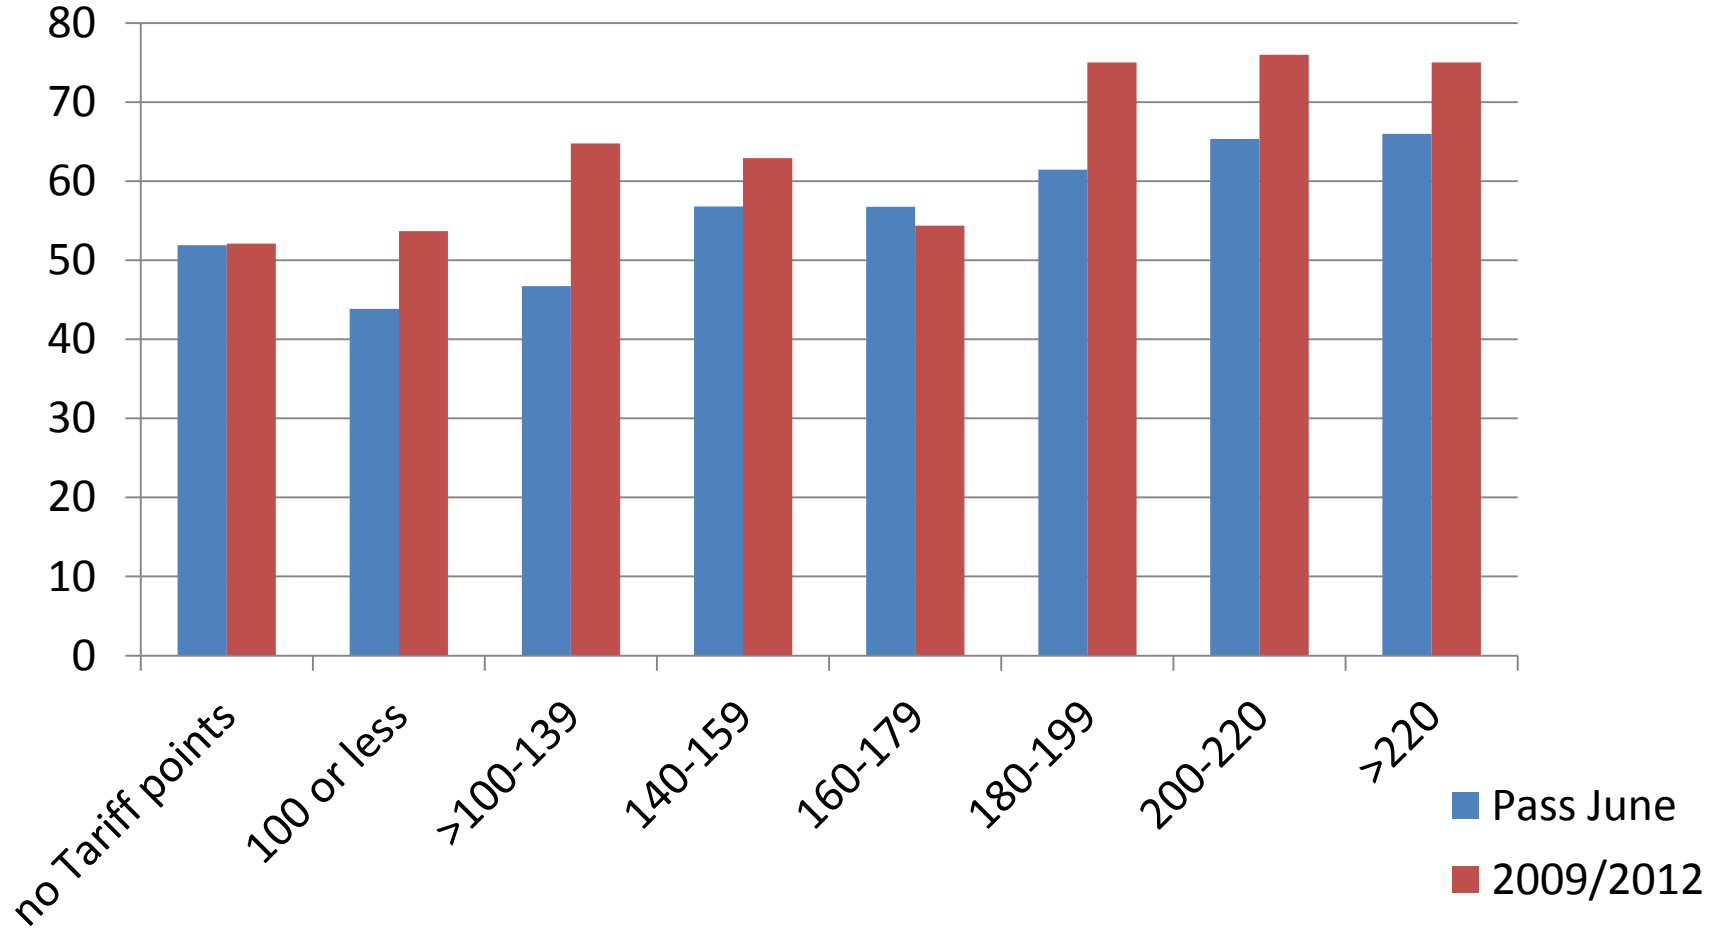

2010/2011

- 37% No Tariff Points (478)

These students:

- More likely to be from Manchester,
- less likely to be in Hall,
- Have a higher mean Age
- Less likely to withdraw

Does the initial Tariff point score have an impact on success?

Summary

Withdraw Students are less likely to be:

- in Halls
- live locally
- be over 23 or come straight from school

Are more likely to

- have enrolled in a previous academic year
- have taken 1-2 years ‘out’

Fail Students are

- More likely to have lower Tariff point score
